

Getting It Right,
the First-time,
On-time...

Safety Program

Safety is EPR's primary concern. A best practices approach is adopted for continuous improvement of our personnel through awareness training.

Safety Training

EPR is fully dedicated to assuring all our personnel exceed basic levels of training and are familiar with the site hazards. EPR field personnel are:

- OSHA 10-hr Trained
- Hazard Awareness Trained
- Knowledgeable of Client Specific Policies
- Continuing Safety Education

Pre-employment Screening

A detailed review of each candidate is conducted as a minimum:

- Alcohol & 10 Panel Drug Testing
- 7-year Criminal and Driving History
- Any Client Requested Screening

Third-party Qualifications

EPR works very closely with each Client to incorporate any unique safety or risk-oriented additions to our project specific program. Additionally, EPR is qualified with:

- ISNetworld (#400-199414)
- ConstructSecure
- iSqFt
